

# DECENNIO OPPORTUNITY

# Objective

Focus on return optimization by investing in multicap portfolio of companies with good corporate governance, strong emerging business or companies entering into next business upcycle.

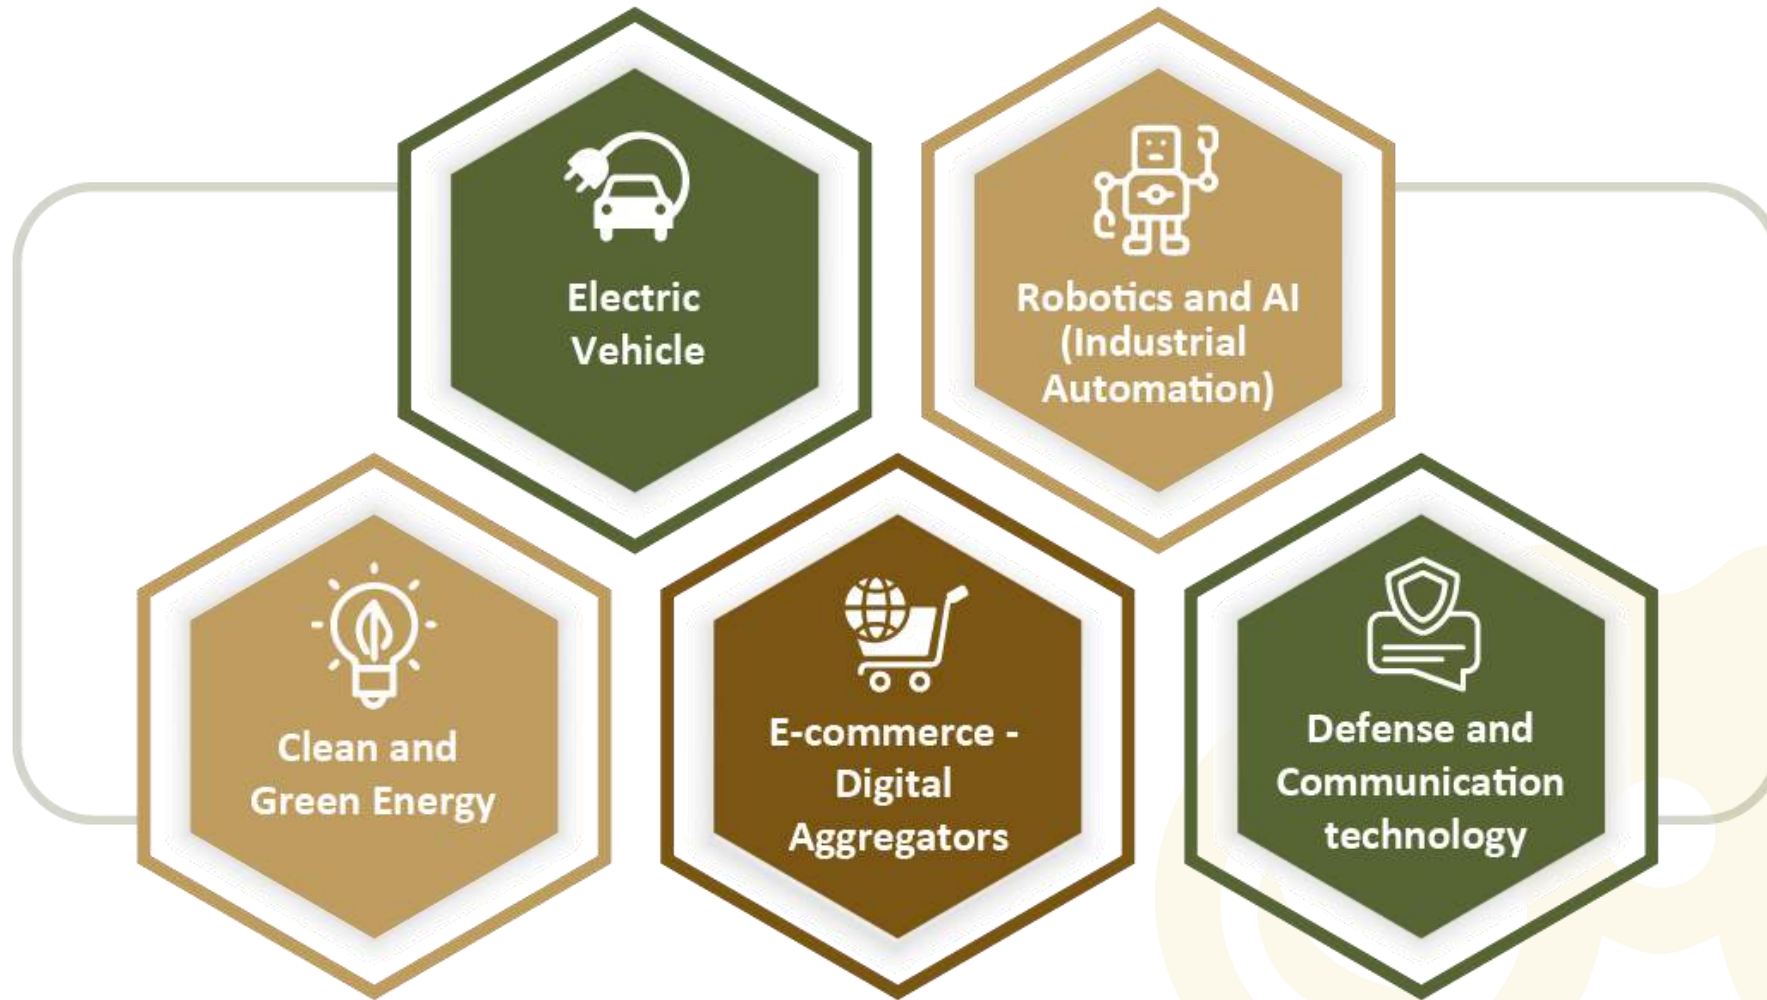

India Vision: Global Powerhouse with USD 5 Trillion dollar economy by 2025

Investing in companies which are likely to benefit from Industrial Revolution, new age business, favorable Policies, and companies that are showing visible sign of turnaround with higher growth in their next business up cycle.

Note: The above opportunity are given for illustration purpose there are many other emerging business in this ongoing industrial revolution, which could form a part of portfolio.

## Digital India and Ecommerce:

Various Government initiatives, namely Digital India, Make in India, Start-up India, Skill India and Innovation Fund to help Ecommerce. It is estimated that active Internet users (AIU) in India will grow from 622 million in FY2020 to over 900 million in 2025 - which is essentially a growth of around 45% in the adoption of the internet in India over the next five years

## Electric Vehicle

- FAME-2, PLI and state government EV policies are expected to promote EV demand, improve localization, increase cost competitiveness and develop a complete ecosystem.
- 'The EV market is expected to expand at a CAGR of 44% between 2020 and 2027 and is forecasted to touch 6.34 million units of annual sales by 2027,' the IESA report said. Similarly, annual demand for batteries is expected to increase by 32% to reach 50 GWh by 2027, with 40 plus GWh for lithium-ion batteries.

## Robotics/AI Industrial Automation

- Industrial Automation is becoming a norm as more and more factories and manufacturing units are becoming digital and process are becoming more and more automatic. This is Also creating a big opportunity for companies operating in the Industrial Automation space.
- Also Next industrial Revolution in focusing on customer experiences and customized product and service offering.

Note: The above opportunity are given for illustration purpose there are many other emerging business in this ongoing industrial revolution, which could form a part of portfolio.

## Clean and Green Energy

- It is expected that by 2040, around 49% of the total electricity will be generated by renewable \*Use of renewables in place of coal will save India Rs. 54,000 crore (US\$ 8.43 billion) annually<sup>3</sup>. Renewable energy will account for 55% of the total installed power capacity by 2030.
- As per the Central Electricity Authority (CEA) estimates, by 2029-30, the share of renewable energy generation would increase from 18% to 44%, while that of thermal is expected to reduce from 78% to 52%.

## Defence and Communication Technology

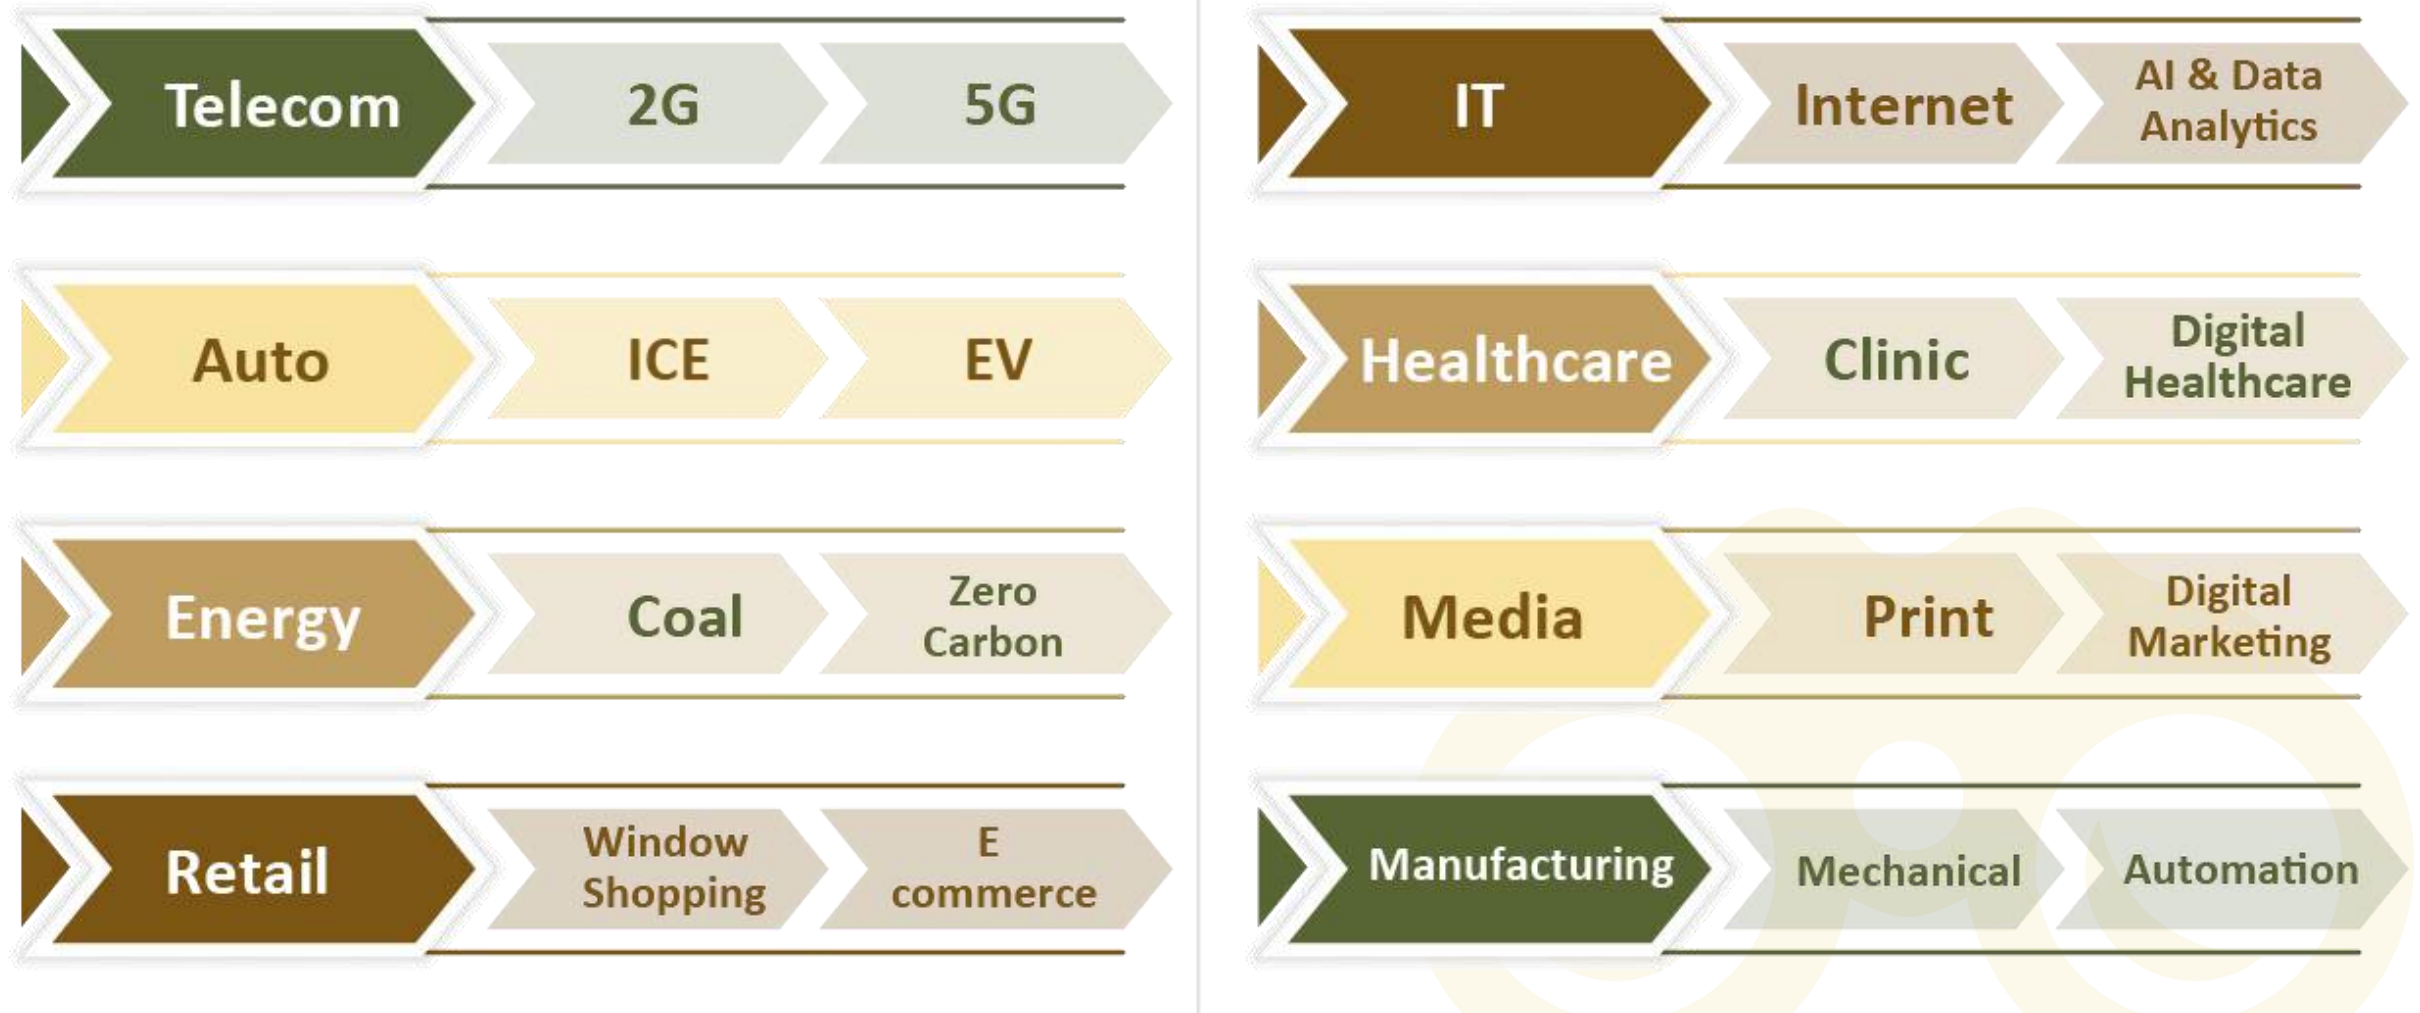

- Government is focussing on innovative solutions to empower the country's defence and security via 'Innovations for Defence Excellence (iDEX)', Platform for start-ups to connect to the defence establishments and develop new technologies/products in the next five years (2021-2026).
- The Defence Ministry has set a target of 70% self-reliance in weaponry by 2027, creating huge prospects for industry players. Introduced Green Channel Status Policy (GCS) to promote and encourage private sector investments in defence production to promote the role of private sector in defence production.

- Indian economy has found its place among the key global players in many of the sectors.
- India increasing its share and becoming a part of the global supply chain and also a reliable partner.
- Government focus on building capabilities, scale and good manufacturing practices.
- PLI, Export incentive and Atmanirbhar Bharat Initiative very well supportive to strengthen India's private players/ Entrepreneurs to scale up their business.
- With overall economic growth both at macro and micro level and favorable policy many sectors enters into their next business upcycle

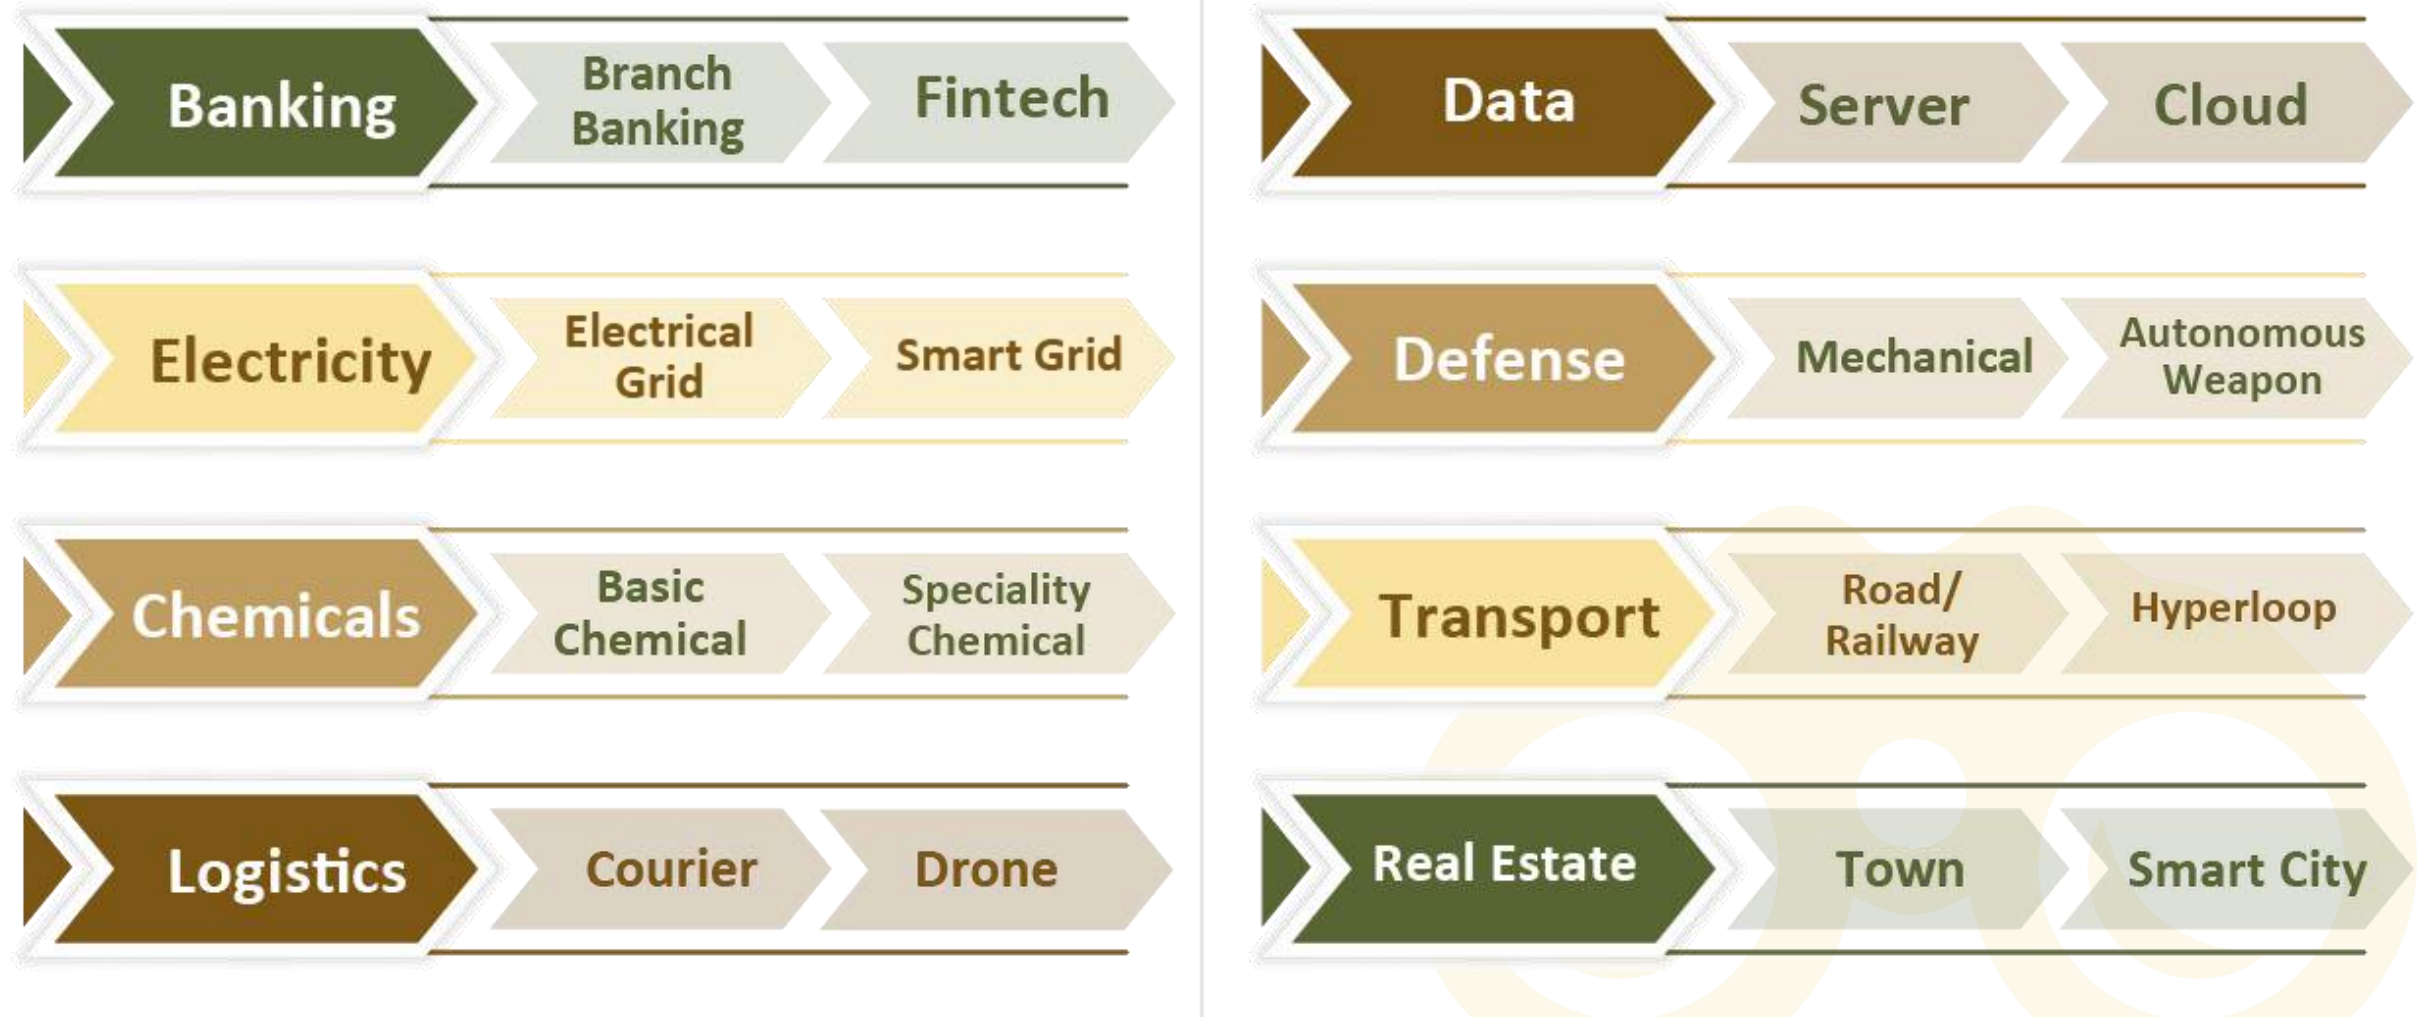

# Opportunities at every level of emerging business

The key to success is to adapt to the changing business dynamics.
